📍 Moratuwa

I am a young software engineering undergraduate with a strong passion for technology. I am committed to continuous learning and growth, always seeking out new technologies and approaches to stay ahead of the curve. With my team-oriented mindset and positive attitude, I am confident that I can bring fresh perspectives and creative solutions to any organisation.

Education

BEng.(Hons) Software Engineering

University of Westminster *London, United Kingdom*
2022 - Reading

First Year Results (Average 81.3%)

- Mathematics for Computing - 92%
- Software Development I - 90%
- Trends in Computer Science - 70%
- Software Development II - 83%
- Computer System Fundamentals - 78%
- Web Design Development - 75%

Second Year Results

- Object-oriented programming - *pending*
- Database Systems - *pending*
- Algorithms - *pending*
- Server-Side Web Development - *pending*
- Software Development Group Project - *pending*

GCE A/L Examination & GCE O/L

S.Thomas' College *Mount Lavinia, Sri Lanka*
2007 - 2021

- A/L (Commerce)
- O/L

Experience

Duende | Project Co-ordinator

Commerce Society - S. Thomas' Collage Mount Lavinia
April 2020

Eclipse | Project Co-ordinator

Commerce Society - S. Thomas' Collage Mount Lavinia
March 2020

Devos | Project Co-ordinator

Commerce Society - S. Thomas' Collage Mount Lavinia
Feb 2020

Motor Show | Committee Member

Automoblie Club - S. Thomas' Collage Mount Lavinia
March 2019

Tree Naming Project | Committee Member

Wildlife Society - S. Thomas' Collage Mount Lavinia
Jan 2019

Certificates

- Completed the Gateway School of Computing course
Pearson Assured
- Completed the Student Tutor Program
Gateway School of Computing Assured
- Fully Completed the Preparatory course for higher education
LNBTI Assured
- Learn cloud computing with AWS
DevTown Assured
- Completed Aquathon
Aquathon powerd by codegen Assured
- Backend Web Development
DevTown Assured
- Web Design for Beginners
University of Moratuwa Assured
- Python for Beginners
University of Moratuwa Assured

Other Projects

Theater Booking System

A program to buy tickets for a movie theatre(2nd semester project)

- A program for a movie theatre that lets customers book a seat and purchase a ticket of the movie theatre.

Technology Stack: Java

Cricket World

A website for cricket fans about the history, best team players and trophies.(2nd semester project)

- Led the team in this group project, where we developed a website for cricket fans.

Technology Stack: HTML, CSS, JavaScript

University Progression Outcome Predictor

A program to predict progression outcomes at the end of each academic year. (1st semester project)

- Using the student marks that the lecturer inputs to the system, the system will predict the progression outcomes at the end of each academic year.

Technology Stack: Python

MyPath

A platform that helps after A/L students choose universities and the subjects they modestly want to do. (Idealize team project)

- Asking questions about what they mostly like for their career path and predicting a good university and subjects.

Technology Stack: Figma

Technical Skills

Programming Languages

- Java
- Python

Front-End Development

- JavaScript
- CSS
- HTML
- React

Non-Technical Skills

- Team work
- Leadership
- Creativity
- Problem-solving
- Photography
